Quick Guide MW767FP

THANK YOU FOR CHOOSING OUR MICROWAVE OVEN
FOR BEST RESULTS, PLEASE READ THE INSTRUCTION MANUAL BEFORE USING THE APPLIANCE.
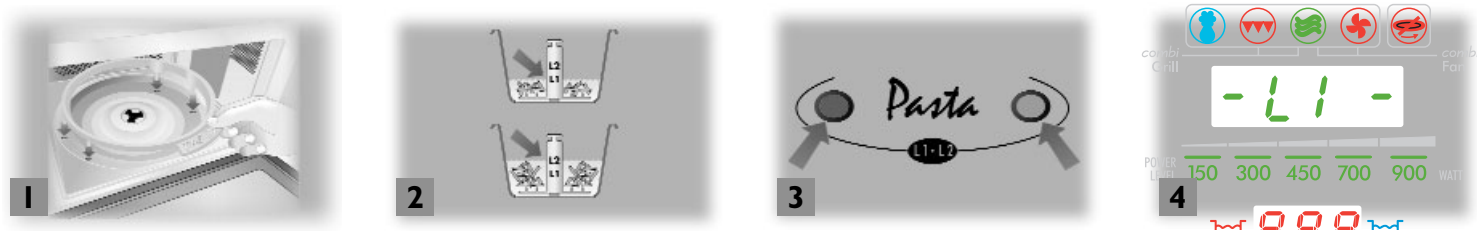

PASTA FUNCTION

1 After removing the turntable and turntable support with wheels from the oven, place the pasta cooker support in the oven, inserting the four pins into the four holes in the bottom of the cavity.

2 Place the pasta in the pasta cooker and cover completely with water until it reaches one of the two levels indicated on the mixer. Add salt and cover with the lid.

3
4 Place the container in the oven and select the key corresponding to the water temperature (blue if the water added is cold, red if the water is hot), pressing it a number of times until the level of water

reached in the container (L1 or L2) is displayed.

Select the cooking time for the pasta used (see pasta pack) by rotating the TIME ADJUST knob ("Microwave Function", Fig. 2).

To start the function, press the ◁▷ key ("Microwave Function", Fig. 4). At the end of cooking, drain the pasta.

> **IMPORTANT: you should read the instruction manual carefully for more detailed explanations on how to proceed.**

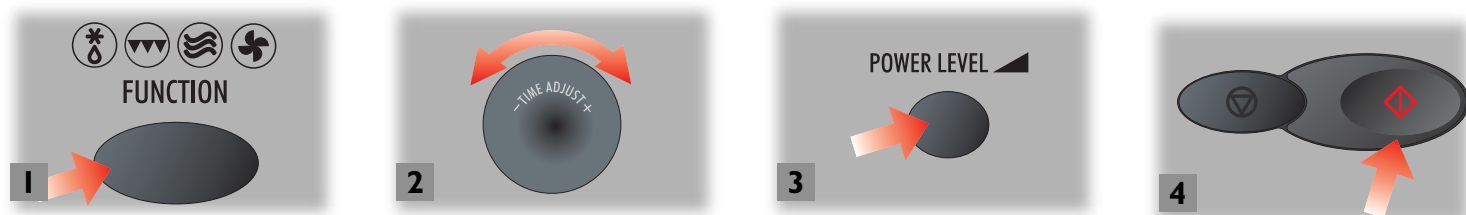

MICROWAVE FUNCTION

Prepare the food in a container suitable for microwave use and place it on the turntable. Close the oven door.

1 Press the FUNCTION key until the ≋ symbol flashes.

2 Select the cooking time by rotating the TIME ADJUST knob.

3 If necessary, modify the microwave power by repeatedly pressing the POWER LEVEL key.

4 Press the ◁▷ key to start the function.

At the end of cooking, you will hear a beep and the word *END* will appear on the display.

QUICK REHEAT

Place the food to be reheated inside the oven on the turntable, close the door and press the ◁▷ key. The oven will start automatically for 30" at maximum power.

Pressing this key again in rapid sequence will increase the time in steps of 30" up to a maximum of 3 minutes.

Once the cooking procedure has begun, the programmed time can be modified with the TIME ADJUST knob to a maximum time limit of 60 minutes.
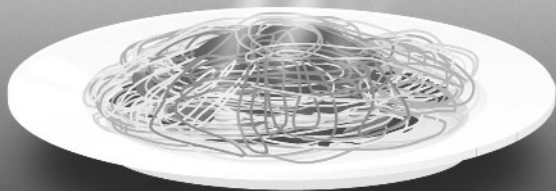

TIMER FUNCTION

Press the FUNCTION key until three dashes appear at the bottom of the display.

Select the time required by pressing the TIME ADJUST knob and press the ◁▷ key.

At the end of the time set, you will hear a beep and the word *END* will appear on the display.
